SumConstraint.java

```java
12 @Target(ElementType.TYPE)
13 public @interface SumConstraint {
14     String name();
15     AssocCls assocCls();
16     RolePath rolePath();
17     AttrCond[] collect() default {};
18     String sumAttr();
19     AttrRef[] fixAttr() default {};
20     AttrCond[] ifPart() default {};
21 }
22
```

AssocCls.java

```java
9 public @interface AssocCls {
10     String as1();
11     String as2() default "";
12 }
```

*AttrCond.java

```java
9 public @interface AttrCond {
10     RolePath path() default @RolePath();
11     String attr() default "";
12     String matchAttr() default "";
13     String matchStr() default "";
14     String varAttr() default "";
15     String varFilterAttr() default "";
```

TermRecord.java

```java
4 import org.vnu.sme.ocl2annos.annotation.AssocCls;
5 import org.vnu.sme.ocl2annos.annotation.RolePath;
6 import org.vnu.sme.ocl2annos.annotation.AttrCond;
7 import org.vnu.sme.ocl2annos.annotation.AttrRef;
8 @SumConstraint(
9         name = "cm17_LowGPACreditRestriction",
